

## Items of Interest

- **Photographs** “A picture is worth a thousand words...” Photographs are unique in conveying both the physical surroundings of an era and the specific people of that time. We would prefer to have original photographs or negatives. If a photo is precious to your family, we can scan it and return it to you, or make prints for your family, sometimes better than the original.
- **School memorabilia** Class photos, yearbooks, report cards, programs for school events, school newspapers, sports awards.
- **Maps and documents** The words and details of a time are captured in a variety of documents—receipts, diaries, letters, contracts, newspapers, telephone directories, minutes and records from community groups, etc.
- **Tools of everyday life** The little things that folks reached for in the activities of their days, whether in the house, the workshop, the barn, or a place of business.
