CHECK OUT A SAMPLE OF FALL CITY ANSWERS TO OUR PANDEMIC QUESTIONS

#1. What are your earliest memories of the pandemic?

We were in the emergency room with my daughter and I heard the nurse say to her colleague, "it's here, it's in Everett". The woman looked terrified. We didn't know what they were talking about until later.

#2. How did the pandemic change your daily life?

Having to use lots of PPE and emphasis on infection control impacting patient care at work.

#3. What have you missed the most in the past year?

Social gatherings and attending Sounders games

#4. What are you looking forward to the most after things get back to a new normal?

Visiting freely with my loved ones. I so miss you all.

#5. How did you adapt to doing things online rather than in person?

I hate to admit it, but doing some meetings on Zoom is actually easier.

#6. Have you found any positive experiences through the pandemic?

We have been humbled by the outpouring of food donations and financial support from the community. Numerous new people have stepped forward to volunteer

#7. What has surprised you during the pandemic?

How much I missed hugs from my boys. They were being very cautious and keeping their distances as they should. Something we take for granted, such a simple gesture of affection, can be really missed

#8. What changes would you like to keep?

I'm not giving up on online grocery shopping and delivery.
