**Thanks to George Higley
for sharing this photo,
taken in 1942,
of his cousin, Ralph Slater,
working at a logging site
on the Olympic Peninsula.**

If the photographer had been far enough away to capture the whole tree, the climber would hardly have been visible.

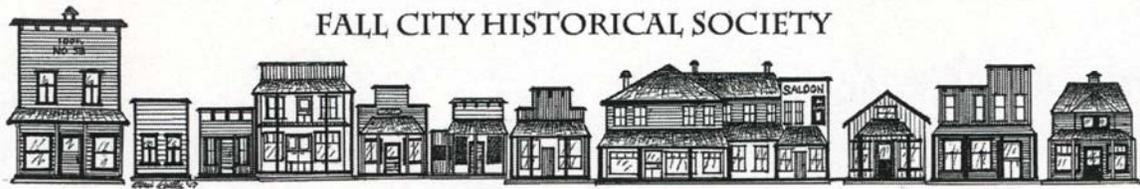

See text below,
provided with the photo.

It is hard to imagine how difficult it would be to climb once the 38 ft rope was around the tree and attached to his climbing belt.

If a circumference of about 40 ft near the ground is assumed, that means over 12 ft in diameter. Using the figure of 23 rings (years) per inch, given on the Kinsey photo shown in the January NL, this tree was more than 1500 years old.

TEXT PROVIDED WITH THE PHOTO: Ralph Slater climbing a Sitka spruce to limb and top it for use as a spar tree for Esses Logging Co. on the upper Queets, 1942. Courtesy Joanne Grindstaff.

The rope on his climbing belt was 38 ft long. He had to hold it in his hand until he was up 15-20 ft where the tree trunk was enough smaller that he could tie it to his climbing belt. The tree was 4 ft in diameter 140 ft above the ground where he cut off the top. It took him 8 hours the first day and 11 hours the second to complete the job. (Slater 2015)

FALL CITY HISTORICAL SOCIETY

Remember Saturday, October 7th!
5-7 pm, at the Fall City Masonic Hall

For the Annual Community Meeting, Harriet Baskas returns with:

*The Ancient Fruitcake: What Really, Really Old Food
Tells Us about History, Culture, Love, and Memory*

Refreshments provided...everyone is welcome!

CALENDAR COMING IN OCTOBER

Watch for the 2018 Calendar, coming out in October!
We've brought together images from a dozen regional
collections for your enjoyment.

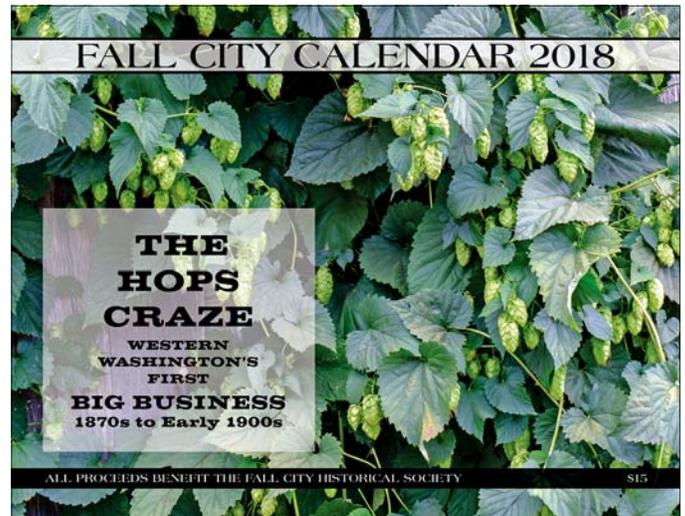

Photo at left
is the Andrew
Johnson farm
in the Tualco
Valley, south
of Monroe.

FALL CITY HOP SHED

In August the Hop Shed received
treatment with borate preservative,
both spray-on and injected borate gel.
Oil-based water repellent was also
applied to the exterior. The work
was funded by a King County 4Cul-
ture Preservation grant.

Our thanks for helping preserve this
unique local landmark.

Support for our work from King County Heritage 4Culture is gratefully acknowledged.
